

Data Analyst

Salary: £35-45k

Based: Leatherhead, Surrey

ingenie is an award-winning insurance brand for young drivers and learner drivers. By rewarding young drivers with discounts for good driving, our aim is to help them stay safe on the road, (which helps Mum and Dad sleep at night) but also to make insurance more affordable. As well as our car insurance products, we offer a whole range of guidance and support for new drivers and parents too. Check us out: www.ingenie.com

We're a progressive company based in Leatherhead with a great team of people working for us across marketing, development, analytics, product development, customer services, operations and finance. Our work culture is a friendly and relaxed one - you won't find any suits here - but we work hard as we know we're part of a competitive market. Innovation and growth are a big focus for us over the coming year.

Our drivers are at the heart of what we do and that's backed up by our current rating on Reevoo.com, with 95% of respondents recommending us - something we're really proud of.

The Opportunity

We are looking for a motivated and enthusiastic analyst to expand ingenie's small but capable analytics team, reporting to the Head of Pricing & Analytics. As the role involves working closely with colleagues with a variety of skillsets as well as external partners, it would suit someone who is looking to expand their horizons and use their analysis skills to get exposure to a wide range of business functions.

Responsibilities:

- To help us understand the business and our customers by providing appropriate data in order to drive product development and growth
- Conducting detailed data interrogation as required, including working with complex or partial data, to produce insightful and commercially appropriate outputs.
- Work with our underwriting partners to understand market and claims trends and identify opportunities to grow our business profitably.
- Monitor ongoing performance figures to understand market trends and recommend changes to strategy to adapt to these
- Work closely with company stakeholders and third parties to develop requirements and recommendations as part of the development of new products, ongoing product enhancements and process smoothing.
- Assist with designing and building a suite of reports that maximises the benefit of ingenie's datasets.

Skills and experience:

Required

- Ability to manipulate and analyse raw datasets
- Strong analytical and problem-solving skills
- Ability to communicate technical ideas to a non-technical audience
- Understanding of statistical modelling and predictive analytics techniques

Desired

- Insurance pricing or portfolio analysis skills
- A degree in a numerate subject
- 2+ years working in personal-lines pricing or underwriting

Technical requirements:

- Strong IT skills and willingness to learn new technologies and techniques
- SQL
- Data visualisation tools e.g. Tableau
- Other languages e.g. R, Python, would be desirable
- Emblem experience also desirable

Our ideal candidate should be

- An excellent communicator and team player
- A self-starter with a commercial mind-set

What we're offering in return

- 25 days annual leave, on top of the usual bank holidays
- Vitality Private Health Insurance
- Vitality Private Life Assurance
- Access to a pension, with employer contributions
- Professional development sponsorship
- Discretionary company bonus scheme
- Access to discounted gym membership
- Car parking on site
- A help-yourself kitchen that's kept well-stocked with fresh fruit and snacks as well as hot/cold drinks

- Regular Pizza Fridays – just because

Our environment

Our head office is bright, airy and surrounded by stunning grounds. With the River Mole running alongside you'll find all sorts of wildlife joining you on your lunchtime stroll or picnic. Leatherhead's town centre is just a 10-minute walk away and has a good choice of cafés, restaurants and shops to grab a bite to eat.

We also have a team of Social Genies who organise activities for us, from summer BBQs and quizzes to competitive egg and spoon races.

To Apply

Email careers@ingenie.com with your CV and tell us why you're the right person for this job.
